

**Position:** Entry Level Analyst

**Location:** Washington, DC area

**Company:**

Augur Consulting is a Service Disabled Veteran–Owned Small Business (SDVOSB) that provides management consulting advice to its Government–only customers. Our core competencies are based in quantitative analysis, and include project scheduling, cost estimation, and earned value management.

**Responsibilities:**

Our consultants work closely with government program offices in the acquisition of cutting edge defense systems and technologies. Consultants will analyze, present, and defend their findings. Analysts will perform a wide variety of analytical tasks in support of various DoD organizations at the program office level.

***Cost Analyst responsibilities include:*** Development and maintenance of complex cost modes, life cycle cost analysis, cost risk analysis, and cost performance tracking. Special projects include analysis of alternatives (AoA), business case/cost–benefit analysis, learning curve projections, and cost excursions as needed by customers.

***Schedule Analyst responsibilities include:*** Critical path analysis, schedule variance analysis, integrated master schedule development and tracking, vendor performance analysis and tracking, schedule risk analysis and ad–hoc problem solving.

**Education:**

Bachelor’s degree is required. Strong preference for education in the field of quantitative science (Engineering, Economics, Math, Finance, etc.)

**Requirements:**

Candidates must be proficient in quantitative analysis, program management, and data collection and interpretation. Strong problem solving, critical thinking, teamwork, communication, and presentation skills are necessary. Applicants should be proficient in MS Office (Word, PowerPoint, and Excel). Experience with ACEIT, MS Project, or other analytical software tools preferred.

Must be able to obtain and maintain the necessary (requisite) levels of security clearance. U.S. citizenship required.
